

## SUCCESS STORY UNDER MGNREGA, ASSAM

(1)

**State:** Assam  
**District:** Kamrup  
**Name of the work:** Strawberry Cultivation at the land of Pahari Kanya  
SHG at Nizbogai under “Swa Nirbhar Nari Aatmo Nirbhar Axom”  
**Work Code:** 0407009002/DP/9010255574  
**Financial Year:** 2021-2022  
**Estimated Cost:** Rs. 99,720/-  
**Gaon Panchayat:** Uttar Dakhin Bongaon  
**Block:** Bongaon Development Block

### Introduction of work:

Strawberry Cultivation at the land of Pahari Kanya SHG at Nizbogai under “Swa Nirbhar Nari Aatmo Nirbhar Axom” (SNNANA)

### Implementating process:

This work was proposed by members of SHG under “Swa Nirbhar Nari Aatmo Nirbhar Axom” which is sanctioned under MGNREGA in the financial year 2021-22. They had planted total 8500 Nos. of strawberry plant in 1 bigha area of land in the month of November 2021.

### Impacts:

Since January 2022, they have started harvesting the fruits and are generating an income on a daily basis by selling the fruits in the nearby market or to the local people of the village. They now generate an average of 300-400 rupees for each member of the Self Help Group by selling 10 Kg per day. The members of SHG are now self-reliance and act a model for promoting entrepreneurship. They are also promoting organic farming in the area and this has encouraged the farmers of the nearby village to switch from traditional farming to organic farming.

**Name of the State** : Assam  
**Name of the District** : Goalpara  
**Name of Block** : Kharmuza  
**Name of G.P** : Nolonga  
**Name of Asset** : Construction of irrigation canal from Mizanur Rahman land at Thepkai Simlabari  
**Estimated Amount** : 6.33 Lakh  
**Person-days created** : 1134 Nos  
**Date of Completion** : 07-10-2020

**OVERVIEW OF THE PROJECT:**

**Introduction to work** : Construction of irrigation canal from Mizanur Rahman land at Thepkai Simlabari

**Need of work** : The main purpose of this scheme is:

- To solve the problem of drought during dry season
- To equally distribute the rain water stored in agriculture field

**Implementing Process** : The work was carried out by the job card holders of the Kharmuza Development Block

**Implementing Agency** : Nolonga GP

**Impacts:**

Farmers were unable to carry out agricultural activities due to a lack of water, which had an impact on crop production. As a result of popular demand, the MGNREGA plan was used to create a distributor canal. The brick canal was built using registered skilled and semi-skilled labour. People have reaped significant benefits as a result of the scheme's completion, as they now have access to adequate irrigation water. As a result of the scheme's proper use of rain water, the livelihood of the people living nearby is altered and has created a total of 1134 mandays

**Name of the State** : Assam  
**Name of the District** : Goalpara  
**Name of Block** : Matia Development Block  
**Name of G.P** : Matia Gaon Panchayat  
**Name of Asset** : Construction of Water Harvesting Tank of Matia Rural Development Society Ph-I  
**Financial year** : 2020-21  
  
**Estimated Amount** : 9.82 Lakh

**OVERVIEW OF THE PROJECT:**

**Introduction to work:** Construction of Water Harvesting Tank of Matia Rural Development Society Ph-I

**Need of work** : The main purpose of this scheme is:

- To develop natural wetlands
- To develop the wetlands into fisheries/farm ponds
- To harvest rainwater
- To use the water for agricultural purposes during dry season

**Implementing Process** : The work was carried out by the job card holders of the Matia Development Block

**Implementing Agency** : Matia Gaon Panchayat

**Impacts:**

These structures have altered the village's ecology in numerous ways, including providing a healthy and environmentally friendly setting for birds and animals. It provided irrigation facilities to poor farmers' nearby agricultural lands. Committees were also formed to oversee and manage the initiatives, as well as to prevent theft and misappropriation.

**Name of the State:** Assam  
**Name of Scheme:** Construction of Irrigation Canal from dakhin Moirabari Choudhury Para Jamme Masjid to other paddy field.  
**Code No:** IC/9010260706  
**Name of District:** Morigaon  
**Name of DRDA:** Morigaon  
**Name of Block:** Moirabari Dev. Block  
**Name of G.P. :** Moirabari  
**Name of Village:** Dakhin Moirabari  
**Estimated Amount:** Rs.972796/-  
**Date of commencement:** 15-02-2021  
**Area :** 5 Hectres  
**Total Mandays:** 590 Mandays  
**Total Job Card:** 75Nos.

**Introduction of work:**

The project is situated at Dakhin Moirabari, Near Choudhary Para Jamme Masjid in Moirabari GP under Moirabari Dev. Block Dist: Morigaon, Assam.

**Objectives of the Scheme:**

The main purpose of this scheme is to:

- Solve the problem of drought during dry season
- To equally distribute the rainwater stored in agricultural field
- To increase agricultural production of the area

**Implementation process:**

Accordingly the proposed scheme was sanctioned by DPC, Morigaon and was implemented by respective GP by job card holders of the GP successfully. Total 75 persons were engaged in the work.

**Impact:**

With the help of this scheme, the problem of water scarcity for irrigation in the Dakhin Moirabari has been solved drastically. After the installation of solar water pump set in the village, the villagers now receive water for irrigation purposes whenever they want as earlier their only source was rainfall in the area. This irrigation Canal is a boon for the villagers as their agricultural production increased and they can even plant crops during winter season. This Canal has benefitted over 30 farmers and also generated a total of 590 Mandays for the job card holders of the village.
